

MODEL 250XP

12" Capacity Hand-Fed Chipper

With over 20,000 units in operation, the Model 250XP is easily the **most widely used Bandit chipper** in the product lineup. For decades, 12-inch capacity Brush Bandit® disc-style chippers have served **tree care professionals and municipalities** around the world for their unwaivering productivity and all-around versatility. The Model 250XP features a huge 12.5-inch by 19-inch throat opening, fed by powerful dual feed wheels mounted in Bandit's proven **slide box feed system** to process a variety of materials, all while providing years of dependable service for many proud, dedicated owners.

A TRUE BANDIT LEGEND

Model 250XP owners across the globe will attest to the performance and long-term ownership experience of this machine with stories of success from countless challenges a jobsite can throw at it. The 250XP has stood the test of time serving professional tree experts, contractors, and municipal operations after years of proven, reliable duty because of its powerful feed system, wide infeed, and chip throwing velocity.

NON-STOP APPETITE

Bandit chippers are notably easier to feed, starting with a sloping infeed tray that will ensure a smooth flow of material. A powerful dual-wheel feed system consisting of two spring tensioned feed wheels, mounted in Bandit's proven slide box system, provides plenty of pulling force to draw large trees and limbs into the chipper. Material is folded and downwardly crushed with little extra trimming, repositioning or cutting larger pieces into shorter lengths. A standard hydraulic lift cylinder also aids with the compression and grip of limby and forked materials.

USER FRIENDLY OPTIONS

Be sure to inquire about a number of options available to enrich your experience and further your capabilities from a hydraulic winch, solid infeed tray with heavy-duty rim, to many more enhancements.

TAKING CARE OF BUSINESS

Most common maintenance items are easy to access on Bandit chippers, so daily maintenance is quick and simple. Bolt-in knives are easy to change through the chipper hood, and all service areas are conveniently located, including all grease points. Thus, helping you take care of your machine so it takes care of you for an extended lifetime is one of our many everlasting goals with design and engineering.

Green

DIMENSIONS

Capacity:	12"	30.5 cm
Opening:	12.5" high x 19" wide	31.8 cm x 48.3 cm wide
Disc:	40" dia. x 2" thick	101.6 cm dia. x 5.1 cm thick
RPM:	Approximately 1,150 RPM	
Hitch:	2-1/2" (6.35 cm) pintle	

Discharge: Height-adjustable, 360° hand crank swivel discharge with 12" (30.48 cm) adjustable chip deflector. Hydraulically controlled options available.

Feed System: Slide box feed system with (2) 17" (43.18 cm) adjustable down pressure springs, (2) 10-5/8" (27.00 cm) diameter x 18-3/4" (47.63 cm) wide horizontal feed wheels powered by (2) 32.3 CID hydraulic motors

Frame: Mainframe is constructed from 1/4" x 2" x 6" rectangular tubing with a 3/8" x 3" x 6" tubular tongue

COMMITTED TO QUALITY & PRODUCTIVITY

Since 1983, Bandit has manufactured equipment for a multitude of wood waste processing markets. The vision since the beginning, is to build quality, highly productive, easy to maintain equipment providing years of dependable service.

The commitment for quality, innovation and dedication is instilled in every employee and is one of the main reasons why Bandit became an Employee-Owned Company (ESOP) in 2018. These core values ensure each Bandit machine will leave the factory ready to exceed your expectations.

MODEL 250XP FEATURES

- **Hydraulic Lift Cylinder (standard)**
Utilizes a hydraulic cylinder to raise or provide down pressure for the top feed wheel (controlled via handle on either side of the infeed hopper)
- **Last Chance Cables (standard)**
Stops/reverses the feed wheel when pulled in case of an emergency
- **Operator Safety Control Bar (standard)**
Wraps around 3 sides of the infeed chute & controls the direction of feed wheels
- **Wood Pusher Paddle (standard)**
Used to feed small wood debris into the chipper
- **Chipper Hood Pin w/Padlock (standard)**
Prevents unauthorized access to the disc or drum
- **Chipper Hood Engine Disable Plug (standard)**
Prevents engine from being started without the hood pin in place
- **Hydraulic Bottom Bump Bar (option)**
Stops feed wheels via mechanical connection when bumped, diverting hydraulic power away from the feed wheels
