

# INTIMIDATOR™ 21XP

The Intimidator 21XP is the **ultimate hand-fed chipper**. With a 21" diameter chipping capacity, it equips tree care professionals with the tools to tackle even the biggest takedowns and clearing jobs that other companies can't handle. The Intimidator 21XP combines big horsepower with an **unstoppable feed system** and a chipping capacity approaching two feet in diameter, yet it's still **easy to maneuver** through suburban neighborhoods for jobs large and small.

## UNMATCHED PRODUCTIVITY

The Intimidator 21XP easily processes large diameter trees with its large 26.25" high x 24.50" wide chipper throat opening. Featuring Bandit's proven slide box feed system driven with high displacement hydraulic motors along with a chain drive for the top feed wheel, large limby material is no match for this chipper!

## EASY TO SERVICE & PEACE OF MIND

As with all Bandit products electronic components are minimized as much as possible to reduce troubleshooting and downtime. All major maintenance areas are easily accessed so routine maintenance is done easier and quicker. Bandit builds all components to be heavy-duty and reliable, which is why a 5-year "GUTS" warranty is standard on all hand-fed chippers covering the Bandit manufactured components of the drum and feed system

## USER-FRIENDLY FEATURES & OPTIONS

A 270 degree hydraulic swivel discharge is standard on the 21XP allowing the discharge to easily be turned making it easier to pack chip trucks to max capacity. A radio remote control with tether back-up is available as an option allowing the operator to control the chippers feed system and discharge functions from a remote location.

## LOADER OPTION

Increase the versatility of your 21XP by adding a Kesla loader. Two configurations are available to control the loader including a swing-out operator's console or wireless radio remote control. The Kesla loader has 360 degrees of rotation and significant pulling and lifting power to easily maneuver and feed large diameter material.

## COMMITTED TO QUALITY & PRODUCTIVITY

Since 1983, Bandit has manufactured equipment for a multitude of wood waste processing markets. The vision since the beginning, is to build quality, highly productive, easy to maintain equipment providing years of dependable service.

The commitment for quality, innovation and dedication is instilled in every employee and is one of the main reasons why Bandit became an Employee-Owned Company (ESOP) in 2018. These core values ensure each Bandit machine will leave the factory ready to exceed your expectations.

## INTIMIDATOR™ 21XP FEATURES

- **Rope/Line Shear Device (standard)**  
Provides an improved chance that rope or lines inadvertently entering the chipper may be cut
- **Last Chance Cables (standard)**  
Stops/reverses the feed wheel when pulled in case of an emergency
- **Operator Safety Control Bar (standard)**  
Wraps around 3 sides of the infeed chute & controls the direction of feed wheels
- **Wood Pusher Paddle (standard)**  
Used to feed small wood debris into the chipper
- **Chipper Hood Pin w/Padlock (standard)**  
Prevents unauthorized access to the disc or drum
- **Chipper Hood Engine Disable Plug (standard)**  
Prevents engine from being started without the hood pin in place
- **Hydraulic Bottom Bump Bar (option)**  
Stops feed wheels via mechanical connection when bumped, diverting hydraulic power away from the feed wheels
