

INTIMIDATOR™ 15XP TRACK

15" Capacity Hand-Fed Chipper

The 15XP track is a mid-sized rubber track chipper that appeals to a wide array of right-of-way and clearing specialists due to its **compact stature and lighter weight** compared to larger Bandit hand-fed track chippers. The larger 37" diameter 4-knife drum enhances the 15XP's ability to chip larger diameter material or multiple pieces at one time. A **John Deere 139-horsepower diesel engine** provides ample torque, creating an efficient chipping action.

POWERFUL FEED SYSTEM

The 15XP track features the proven slide box dual feed wheel system designed to effectively pull, compress, and crush material into the chipper. The slide box allows the top feed wheel to travel straight up and down and provides direct down pressure as material enters the feed wheels. Each feed wheel is driven by high displacement hydraulic motor generating an abundant amount of pulling power reducing the need to trim or re-position material.

RELIABLE TRACK UNDERCARRIAGE

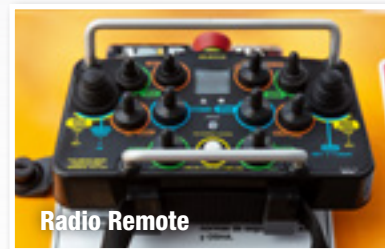

A 305CR Caterpillar rubber track undercarriage enhances durability all while providing a stable travel platform. This undercarriage features a travel speed ranging from 2.3 to 4.1 MPH and has triple grousers for the ultimate flotation and reduced ground pressure. A steel undercarriage is available as an option and is recommended for rocky soil conditions.

WIDE PROFILE INFEED

A large profile infeed hopper simplifies feeding larger diameter material and trees with multiple branches. The hopper is 29" high x 54" wide with a 30" fold down infeed tray. For those feeding the machine with a loader, an HD infeed with solid tray is recommended and can be ordered as an option.

WIRELESS RADIO REMOTE CONTROL

A wireless radio remote with tether back-up is standard and will control all track drive and chipper functions. Chipper control functions include feed direction, feed wheel up or down, discharge swivel and flipper, and winch if applicable.

DIMENSIONS

Capacity:	15"	38 cm
Opening:	17.75" high x 18.5" wide	45 cm high x 47 cm wide
Drum:	37" dia. x 18.75" wide	94 cm dia. x 47 cm wide

RPM: Approximately 1,080 RPM

Discharge: Height-adjustable, 270° hydraulic swivel with 12" (30.5 cm) adjustable chip deflector

Feed System: Slide box feed system with (2) 21" (53 cm) adjustable down pressure springs, (2) 18.75" wide feed wheels (top feed wheel is chain driven) powered by (2) 32.3 CID hydraulic motors

Frame: Mainframe is constructed of .25" x 2" x 6" rectangular tubing (0.48 x 5.1 x 15.24 cm)

COMMITTED TO QUALITY & PRODUCTIVITY

Since 1983, Bandit has manufactured equipment for a multitude of wood waste processing markets. The vision since the beginning, is to build quality, highly productive, easy to maintain equipment providing years of dependable service.

The commitment for quality, innovation and dedication is instilled in every employee and is one of the main reasons why Bandit became an Employee-Owned Company (ESOP) in 2018. These core values ensure each Bandit machine will leave the factory ready to exceed your expectations.

INTIMIDATOR™ 15XP TRACK FEATURES

- **Rope/Line Shear Device (standard)**
Provides an improved chance that rope or lines inadvertently entering the chipper may be cut
- **Last Chance Cables (standard)**
Stops/reverses the feed wheel when pulled in case of an emergency
- **Operator Safety Control Bar (standard)**
Wraps around 3 sides of the infeed chute & controls the direction of feed wheels
- **Wood Pusher Paddle (standard)**
Used to feed small wood debris into the chipper
- **Chipper Hood Pin w/Padlock (standard)**
Prevents unauthorized access to the disc or drum
- **Chipper Hood Engine Disable Plug (standard)**
Prevents engine from being started without the hood pin in place
- **Optional Hydraulic Winch**
- **Standard Radio Remote Control**

Bandit Offers a Complete Line of Tree Care Equipment:
Hand-Fed Chippers • Stump Grinders • Whole Tree Chippers
Horizontal Grinders • Attachments
