MODEL SG-75XT

Track Stump Grinder

The SG-75XT Track Stump Grinder delivers **high-production performance** in a low-profile 66" configuration. Featuring hydrostatic cutterwheel engagement through a hydraulic motor, the SG-75XT eliminates the need for a separate clutch, simplifying operation while delivering smooth, controlled engagement. A more robust track undercarriage with four cylinders provides enhanced **durability and stability** in demanding conditions. Designed to combine productivity, maneuverability, and rugged construction, the SG-75XT is built to tackle tough stump grinding jobs with confidence.

FLEXIBLE RUBBER TRACK UNDERCARRIAGE

The versatile rubber track undercarriage retracts to a narrow 35" width, allowing this high-production stump grinder to fit through a standard 36" backyard gate and access tight spaces that larger machines can't reach. When additional stability is needed, the tracks expand out to 54", providing a wider footprint for improved balance, traction, and operator confidence on uneven or challenging terrain.

EASE OF MAINTENANCE

The SG-75XT houses its engine and hydraulic components within a thoughtfully designed enclosure featuring multiple access doors for convenient servicing. This design provides easy access to the majority of key maintenance points, simplifying routine inspections, service, and upkeep. With maintenance access built into the machine's design, the SG-75XT helps reduce service complexity and makes it easier to keep the grinder operating at peak performance.

STANDARD WIRELESS RADIO REMOTE

Control your machine with Bandit's intuitive radio remote control. Every function on the unit is yours to command with the push of a button – including cutterwheel and track functions, blade, throttle, travel and swing speed, and more!

POWER THROUGH STUMPS

The cutterwheel on the SG-75XT is driven by a gearbox drive system providing abundant grinding power to grind larger diameter stumps efficiently. A Kohler 74 horsepower engine with 221 ft/lbs. of torque provides enhanced power to grind through massive stumps with ease.

SPECIFICATIONS

MEASUREMENTS		
Length:	146”	370.8 cm
Width:	35” - 53”	88.9 - 134.6 cm
Height:	66”	167.6 cm
Weight (lbs.):	5,200 lbs.	2358.7 kg
Engine:	74 HP	55.2 kW
Fuel Tank:	12.5 gallon	47.3 L
Hydraulic Tank:	10 gallon	37.9 L

CUTTERWHEEL SYSTEM		
Dimensions:	27” diameter	68.6 cm diameter
Engagement:	Hydrostatic	
Teeth:	32 or 44	
Cutter Swing:	72”	182.9 cm
Cutter Depth:	24”	60.9 cm
Cutter Height:	30”	76.2 cm

COMMITTED TO QUALITY & PRODUCTIVITY

Since 1983, Bandit has manufactured equipment for a multitude of wood waste processing markets. The vision since the beginning, is to build quality, highly productive, easy to maintain equipment providing years of dependable service.

The commitment for quality, innovation and dedication is instilled in every employee and is one of the main reasons why Bandit became an Employee-Owned Company (ESOP) in 2018. These core values ensure each Bandit machine will leave the factory ready to exceed your expectations.

SG-75XT FEATURES

- A powerful 74 horsepower Kohler diesel engine
- Bandit’s unique Super Sweep system
- Expanding and retracting rubber tracks
- Radio remote control
- Standard grading blade
- Low profile – 66” total height

Bandit Offers a Complete Line of Tree Care Equipment:
Hand-Fed Chippers • Stump Grinders • Whole Tree Chippers
Horizontal Grinders • Slow-Speed Shredders
